Message from the President

ENGINEERS
WITHOUT
BORDERS
INTERNATIONAL

2015 was a very challenging and rewarding year for EWB International. We grew the individual member associations and we now have 65 member associations in EWB-International.

The main achievement last year was the continuation of the close cooperation with ALCOA Foundation. We have successfully managed to implement a 200,000 USD grant with 14 of our members. The presentation of the remarkable results will be presented on the Global Engineer International Forum, which will take place in Denver, CO USA on 17th March 2016. Cooperation with our strategic partners will continue in the future and we will search for further opportunities with national and global partners.

We succeeded in raising awareness among the member associations for payment of the membership fee. With one-third of the membership fulfilling their pledge this shows their commitment to participate actively in the EWB-I work through the nomination of their candidates to the new EWB-I Executive Committee. In addition, member associations are also able to apply for grants raised by EWB-I.

Our current positive financial situation has allowed us to employ a professional staff member in 2016, who will provide assistance to the EWB-I Executive Committee and the Member Associations.

Thank you for all of your continued support of EWB International. Building on our past successes, 2016 will be an even stronger year.

Sincerely,

Oliver Nachevski
EWB-I President

Member Associations

EWB-I Member Associations are united together in pursuit of helping to build a better world

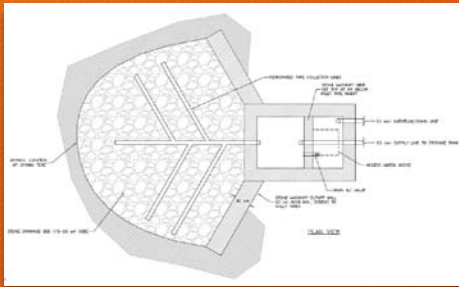

Country	Member Contact
Argentina	Adan Levy
Australia	Lizzie Brown
Austria	Laura Emmermacher
Belgium	
Bolivia	Afnan Agramont Akiyama
Brazil	Raphael Costa
Burundi	Jean Claude Sabushimike
Cambodia	Mom Mony
Cameroun	Jean Merlin ETobe
Canada	Boris Martin
Chile	Eduardo Herrera

USA	Cathy Leslie
Venezuela	Carlos Hernández

EWB-I again received generous funding from the Alcoa Foundation in 2015. A sample of the funded projects are shown:

ENGINEERS
WITHOUT
BORDERS
INTERNATIONAL

Kikoo-Rohvitangitaa, Cameroon

Provide year-round access to clean water in the community of Roh by supplementing the existing system

Hyderabad, India

Initiative to help engineering students in India become more aware of and more participatory in community development using sustainable strategies.

Tingo Pucara, Ecuador

Improve the sanitation aspect of the community through private and public latrines that the community can replicate.
